Weapon Reference

LANCE BEAM · 2 ENERGY

BAND	RANGE	HIT	DAMAGE
SHORT	1--3	2+	3
MEDIUM	4--6	3+	2
LONG	7--9	4+	1

MASS DRIVER · 1 ENERGY

BAND	RANGE	HIT	DAMAGE
SHORT	1--4	3+	2
MEDIUM	5--8	4+	2
LONG	9--12	5+	2

SEEKER MISSILE · NO ENERGY

Moves 2 hexes each impulse after the impulse in which it launches. Contact deals 3 damage. Direct weapons suffer -1 to hit a missile; any hit destroys it.

Movement Reference

TURN MODE · FORWARD HEXES REQUIRED

CLASS	HEXES	SPEED BANDS
SMALL	0 / 1 / 2	1--4 / 5--8 / 9--12
MEDIUM	1 / 2 / 3	1--4 / 5--8 / 9--12
LARGE	2 / 3 / 4	1--4 / 5--8 / 9--12

NORMAL MOVEMENT

- Move forward one hex without changing facing.
- Side-slip one forward-diagonal hex; facing is unchanged.
- After satisfying turn mode, rotate 60°. With Fast Turns, then move forward.

ONE-TIME SPECIAL MANEUVER

- Bootlegger: rotate freely after movement.
- Quick Stop: reduce speed to zero after movement.
- Emergency Power: make one extra forward move.

Turn & Damage

TURN SEQUENCE

- Allocate energy secretly.
- Announce speed; determine initiative.
- Resolve 12 impulses: move, launch, fire.
- Repair funded systems; begin a new turn.

DAMAGE PAST SHIELDS · ROLL 1D6 PER POINT

1--3	HULL	Mark one hull box.
4--5	ENGINE	Mark one reactor / engine box.
6	WEAPON	Mark one available weapon-system box.

SHIELDS / REPAIR

Reinforcement absorbs damage first, then the struck shield bank. Spend 2 energy during allocation to restore one damaged shield box at turn end. Optional weapon repair costs 3 energy.
